VIPER X1 MULTI-FUNCTIONAL STUN-GUN

Unlike a standard contact or drive stun-gun, the Viper X1 has a range of between 1 and 12metres using a choice of 5 cartridges; see cartridge options below.* The X1 is specially designed with DC high voltage, low amperage output. This makes it safer than the traditionally AC design products, which can cause ventricular fibrillation (heart attack) to the human body. Further design features are the built-in powerful LED light, safety plug-pin with wrist strap for anti-theft and unauthorised use. Finally the carbon composite material makes the device extremely robust.

CONTENTS OF STANDARD PACK

- ~ Viper X1 Stun Gun Unit
- ~ 2 x 6m Probe Cartridges
- ~ 1 x Pepper Bullet Cartridge (up to 15m range)
- ~ 1 x Pepper Powder Cartridge (between 3 and 5m range)
- ~ 1 x SOS Signal Cartridge (100m in air)
- ~ Belt Holster
- ~ Charger
- ~ Safety plug-pin with wrist strap

VIPER[®]
PERSONAL PROTECTION

*FIVE CARTRIDGE OPTIONS

6M PROBE: YELLOW CAP

Fires out two probes (see picture below) up to a distance of 6m which transmits DC current to incapacitate attacker

PEPPER POWDER: PURPLE CAP

Sprays out pepper powder to an effective range of approx' 3-5m, irritates membrane tissues which causes stinging and tearing. Useful for number of assailants.

PEPPER BULLET: RED CAP

Contains a pepper bullet, which on impact breaks and omits pepper powder, irritates membrane tissues which causes stinging and tearing, affecting only one assailant. Effective range – up to 15m

SOS SIGNAL: WHITE CAP

Creates a SOS white flare, up to 100m high. Attacks attention in the surrounding area.

RUBBER BULLET: BLACK CAP

Contains a small but effective rubber bullet. Effective range up to 15m. By special order only.
